COATING LINE

Coating Machine - mod. BSR/R

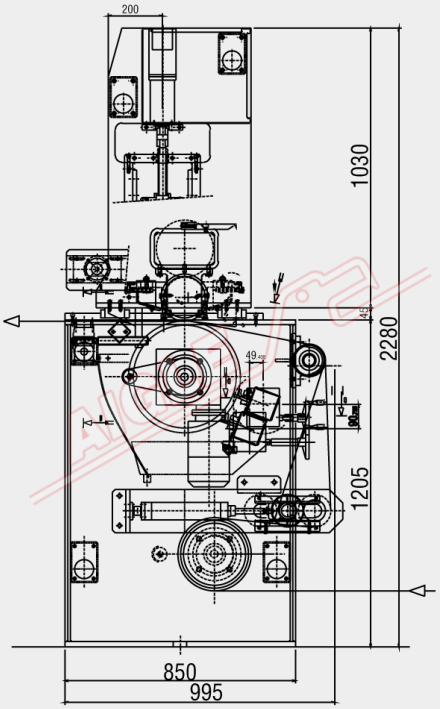

The **Coating Machine mod. BSR/R** is used to coat fabric, paper and TNT (with resin and adhesives).

The machine' features are:

- Easy implementation: the coating machine can be placed at the inlet of a common stenter/ oven
- Maximum control over compound quantity; process reproducibility is guaranteed
- Great flexibility in choosing compounds and textile supports, the variety of which is continuously growing
- Great accuracy in the tensioning of textile support passing through the machine.

The unit can be used for blade on-air coating, coating on cylinder and reverse roll. It is equipped with a very accurate motorized device to adjust the coating thickness through digital displays, and to lift the blade/ cylinder when the seam passes through.

TECHNICAL DATA	
Useful width	to be defined
Power supply	400 V/50 Hz/three-phase
Installed power	3 kW
Compressed air	7±1 Kg/cm²

Member of CISQ Federation
RINA
CERTIFIED MANAGEMENT SYSTEM
ISO 9001 - ISO 14001
GREEN LABEL
SUSTAINABLE MACHINERY CERTIFICATION
