FLOCKING OBJECTS

PLASMA TREATMENT BOOTH MOD. CP/R

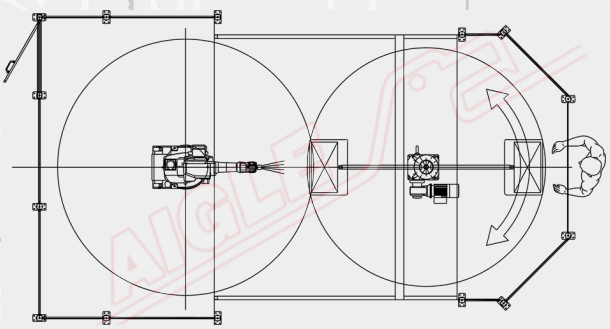

The CP/R Atmospheric Plasma Treatmet Cabin consists of:

- Enclosed cabin with safety guards
- Plasma unit
- Robot
- Interior light (2 x 18W)
- Control cabin

The booth can handle a wide variety of objects of different shapes. The process is fully automatic and is carried out by means of a robot. The workpieces to be treated are placed on a rotating table: the operator places the object there and the table rotates, bringing it to the automatic plasma treatment position; in the other position, the workpiece is ready for the loading/ unloading operation.

TECHNICAL DATA

Power supply	400 V/50 Hz/three-phase
Installed power	3 kW

Member of CISQ Federation
